1. Purpose

The purpose of the Communique is to provide clarity to our Stakeholders with regards to the current Discretionary Grant Application funding window and the submission of the WSP/ ATR for 2022/ 23.

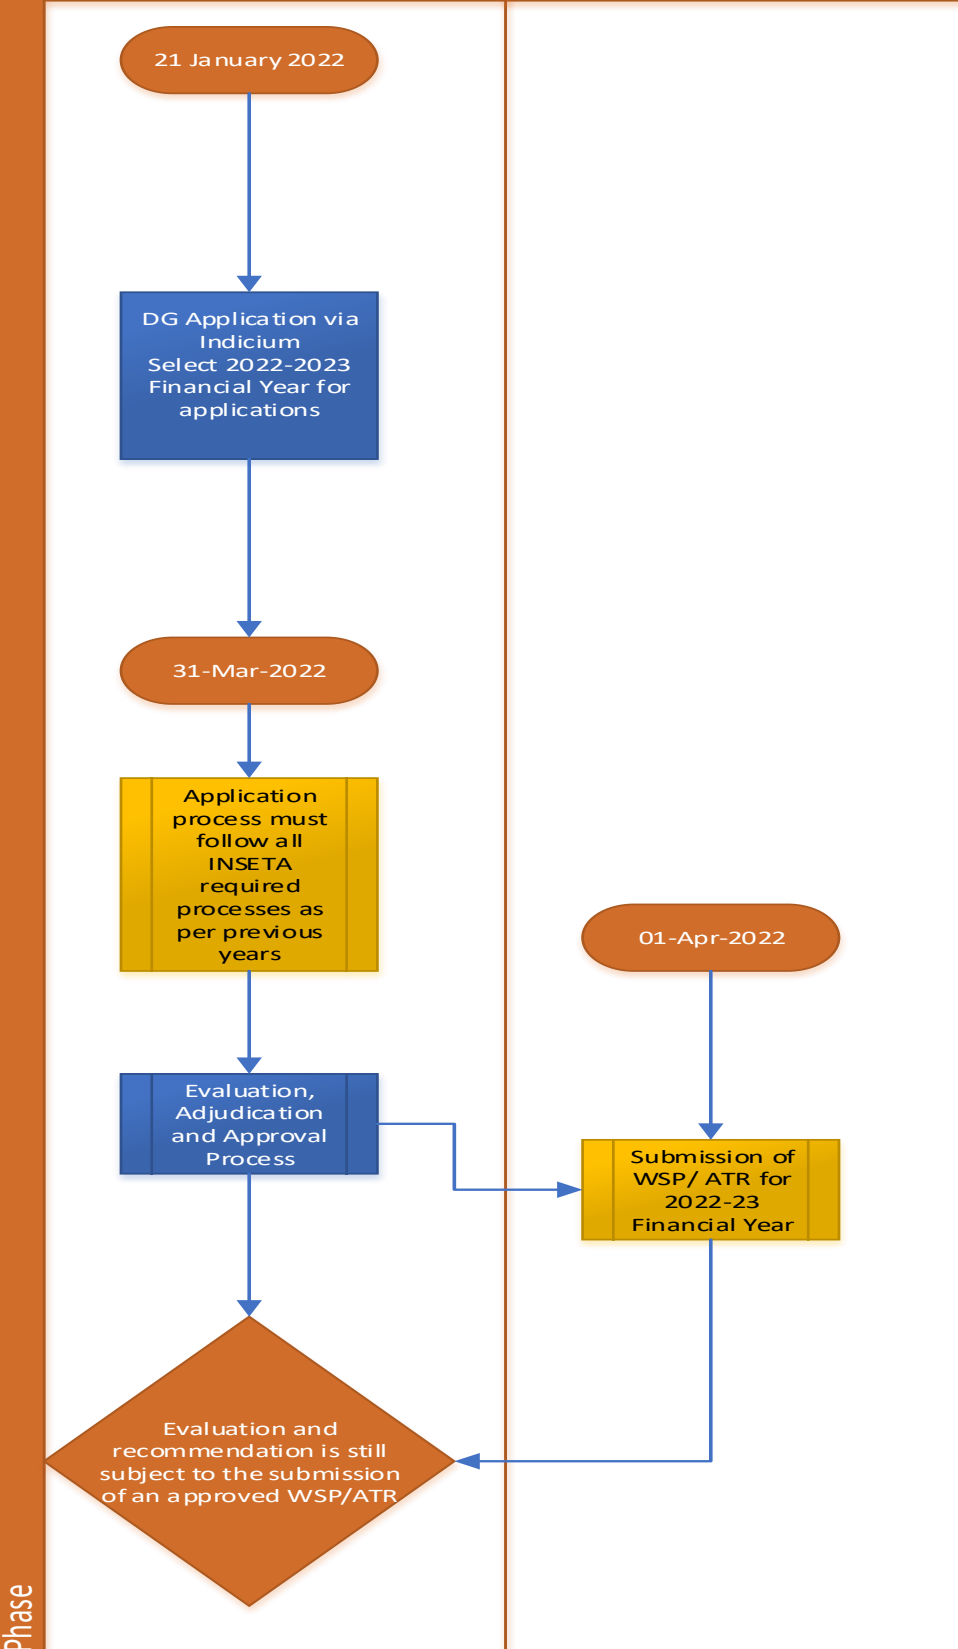

The business rationale in opening the funding window as early as 24 January 2022 – 31 March 2022 is to improve INSETA's response turnaround time to the applications for the 2022/23.

All compliance as per INSETA's procedures remains unchanged and access to Discretionary Grant funding is still subject to submitted and approved WSP/ ATR as per the below illustrated diagram.
